strategic business partners to help achieve the City's mission, goals and objectives.

To that end, Human Resources will re-tool the Human Resources Business Plan and Mayor's vision of succession planning, training and development of staff and performance monitoring. Human Resources will also implement three new technologies: a web-based job applicant tracking system, a Family Medical Leave centralized administration system, and a web-based test scoring and validation tool. The new systems are expected to increase efficiencies and reduce costs.

In the next two to four years, Labor Relations Division/ Benefit Administration Office will endeavor to become a state of the art operation with equipment to support and facilitate the high quality of Labor Relations activities and benefits services provided and required. This will further streamline the labor-intensive paperwork necessary to negotiate contracts, process grievances, and administer benefits.
