

DEPARTMENTAL BUDGET INFORMATION NON-DEPARTMENTAL (35)

MISSION

The Non-Departmental budget provides funds for activities that are not the responsibility of any one single agency.

DESCRIPTION

The **Board of Ethics** investigates and resolves complaints regarding alleged violations of the Ethics Ordinance by public servants, and issues advisory opinions regarding the meaning and application of provisions of the Charter, City ordinances or other laws or regulations establishing standards of conduct for public servants. Advisory options shall be rendered upon written request by a public servant. Advisory opinions shall be published by the Board annually in a report to the Mayor and City Council. The Board is charged with monitoring and recommending improvements in the disclosure requirements, and in the standards of conduct under the Ethics Ordinance, in order “to promote an ethical environment within City government, and to ensure the ethical behavior of public servants.” All meetings of the Board shall be open to the public unless an individual involved in the matter to be addressed requests in writing that the meeting be closed; or unless otherwise provided by ordinance or by statute.

The **Detroit Building Authority (DBA)** is primarily responsible for administering capital projects, as determined by each respective City Department, with identified capital agenda funds or grant funds. Critical functions include: encumbering funds through Contracts of Lease; managing the bid, RFP/RFQ process; issuing contract awards; securing the necessary clearances; advising contractors of Executive Order 2007-1 requirements; execution of contract

documents; monitor design development and construction for each DBA capital project; review and approve contract invoices; oversee payments to vendors.

Media Services, formerly the Detroit Cable Communications Commission (“Cable Commission”) which was established by ordinance in 1981, operates as the City of Detroit’s local video franchising authority with direct responsibility for the review and issuance of franchise agreements and permit agreements to telecommunications providers who seek to obtain access to and ongoing use of the City’s right-of-way for telecommunications facilities.

As the City of Detroit’s video production and television broadcast services provider, Media Services is responsible for the daily programming, operation and management of Government Access Channel 10 and Education Access Channel 22. Media Services interfaces with the Mayor’s Office, City Council, City departments and commissions, educational institutions and community organizations to produce programming that is responsive to the public’s diverse information needs and interests.

Communications Services staff promotes a positive city image by planning, coordinating and implementing effective communications with the City’s customers - residents, business owners, City employees, visitors and the media.

As the communications arm for the City of Detroit, staff provides high-quality service to City agencies and elected officials in their efforts to communicate programs, initiatives and information to various audiences. Services include strategic communications planning and counseling, media relations, event planning, Web site management, writing, graphic design, photography and copying services.

DEPARTMENTAL BUDGET INFORMATION NON-DEPARTMENTAL (35)

Major functions include the development and implementation of communications initiatives including Motor City Makeover and Angels' Night; assisting departments and elected officials in communicating information and services to the public; maintaining the City's web site; operating the Total Copy Center; and providing an account of City initiatives, activities and events through photography.

The Bing Administration is proposing a reorganization of the Detroit Cable Communications Commission, consistent with deregulation in this area at the national level. The regulatory role of the commission no longer exists, so the Administration is proposing ordinance change to dissolve the body. The Mayor's Group Executive for Communications will set the direction for these services. This reorganization integrates publicity, graphics, photography and Total Copy Center services into existing media services, and saves the city \$500,000 in rental, overhead and administrative costs per year.

The **Financial Advisory Board** shall be established due to the Financial Stability Agreement. The Board will have (9) members to be selected by the Governor (3), Mayor (2), City Council (2), and State Treasurer (1), and (1) member selected jointly. The Board is a public body; an independent, intergovernmental entity. The Board is not a commission, board or council of the city or the state. Members of the Board must have certain qualifications, as outlined in the Agreement. Members will receive annual compensation of \$25,000 and payment for "reimbursable expenses". The city is responsible for up to \$3,000 of reimbursable expenses. The Board may

adopt rules of procedures governing the conduct of its business, hire staff, enter into contracts to assist in the completion of its duties; and obtain appropriate levels of insurance for its members. The Financial Advisory Board has the ability to:

1. Recommend financial and operational metrics by which the City's financial performance and operations shall be monitored and evaluated.
2. Monitor the City's financial and operational performance and the timely implementation of the Triennial Budget; and
3. Periodically advise the Governor, the Mayor and the City Council of the Board's conclusion.
4. Monitor the performance by the City and the Treasury Dept of compliance with this Agreement.
5. Take remedial steps set for in the Agreement in the event of a determination by the Board of a material breach of the Agreement.
6. Consent to the approval of City settlements of claims as provided for in the Agreement.
7. Approve of all City contacts having a value of more than \$250,000.

MAJOR INITIATIVES FOR FY 2011-12

The **Board of Ethics** will:

- Develop material and information to increase employee and general public awareness of the changes to the Ethics Ordinance required by the adoption of the new Detroit City Charter and its requirements.

DEPARTMENTAL BUDGET INFORMATION NON-DEPARTMENTAL (35)

- Revise and expand the Web Page. Develop and conduct employee educational programs regarding the role of the Board of Ethics, standards of conduct, complaints and resolution procedures.
- Review the Ethics Ordinance and propose Amendments as needed.

The **Detroit Building Authority** (DBA) is the project manager on the new Public Safety Headquarters project. Subject to economic feasibility, DBA is striving for the building to have a LEED certification. This will be a milestone in the City's real estate inventory, if not in the entire City.

The Detroit Building Authority has instituted a policy of using LEED guidelines as outlined by the United States Green Building Council for all of our new construction and building renovation projects to the extent economically feasible.

These LEED building guidelines (also known as building "Green") are for using durable, long-lasting, energy-efficient, low maintenance building products that are healthful to the environment and to the people who work inside and live around these facilities.

With the institution of this policy the DBA is following a nationwide trend of building "Green" in the United States. Building "Green" will give our clients and citizens of Detroit better maintained facilities.

DBA 2011 ACCOMPLISHMENTS

The Detroit Building Authority is primarily responsible for administering capital projects for City Departments. As the DBA carries out its responsibilities to administer and complete DBA projects, the DBA is

ever mindful of the positive impact its projects have on the quality of life for residents and city workers.

Media Services will:

- Begin 'live' streaming of channels 10 and 22 to be viewed on the city's website.
- Create PSA's that inform and educate our subscribers about city services.
- Re-connect with the local education institutions.
- Partner with Community Access Centers (CAC), formerly known as Neighborhood City Halls to produce more community based programs.
- Reinforce relationships with CCSD to get department information as it becomes available.
- Continue to research and obtain programming that has local and universe appeal for government access channels 10 and 22.
- Communicate city government, educational programming, and news through social media outlets, such as; twitter, you tube, and face book to inform, educate, entertain and motivate citizens about government functions, services, activities, operations, and events. To date, Media Services has had

a total of 26,721 video views for You Tube, Blip, TV and CNN IREPORTER. There has been 90 You Tube subscribers, 215 followers on Twitter and 1, 305 followers on Face Book. Media Services videos have been highlighted on the Toyota Good Ideas Project, Google Demo Slam and CNN IReporter.

- Cablecast high quality programs of community-wide interest and will practice good, open and honest communications.
- Showcase information and experiences aimed at broadening the horizons of its viewers.
- Continue to monitor and partner with local/state/national organizations promoting PEG channels as value added municipal assets (e.g., state and federal legislation and messages).
- Ensure reliability of all transmissions to Comcast and AT&T.
- When applicable, work with the Law Dept. and others to resolve disputes arising from the Uniform Video Local Franchise Act.
- Interface with departments to facilitate familiarity and use of Media Services and affiliated broadcast capabilities to ensure messages about City services, projects, events, and accomplishments are consistently communicated via the City's television channels.

Communication Services:

- Staff will implement a plan to promote its full service public relations operations.
- Work closely with the Media Services (formerly Detroit Cable Communications Commission) to maximize outreach to the city's various audiences.
- Develop electronic newsletter to provide information to City employees, and
- Develop electronic newsletter to enhance outreach to the City's external customers and

establish a process to allow residents, civic organizations and community groups to receive electronic notifications and updates.

- Focus on improving the City's Web site by implementing an enhanced content management system, revising Department home pages, and adding features to increase functionality.
- Implement citywide standards for printing, use of logos and media relations. Complete and distribute city policy manual that covers media relations, print standards, use of logos, etc.

PLANNING FOR THE FUTURE FOR FY 2012-13, FY 2013-14 and BEYOND

The **Board of Ethics** will explore Computer Based Ethics Awareness and Reinforcement Training Programs. Development of additional Publications to increase awareness of the Ethics Ordinance.

The **Detroit Building Authority** will be using the (USBGC) Leed Council's standards for new construction and renovation for as many of DBA projects as economically feasible. Such structures will be designed, built, renovated, and operated in an ecological and resource-efficient manner. The DBA is committed to assisting City Departments with capital improvement projects that meet certain objectives such as protecting occupant health; improving employee productivity; using energy, water, and other resources more efficiently; and reducing the overall impact to the environment.

Major projects the DBA expects to complete during the next fiscal year include the following:

City Airport Department

*French Road Mini-Take- Phase 5- Safety project for FAA, subject to receiving FAA funding

Media Services labor intensive television productions and technologically driven television broadcasting combine to bring key communications to the public through our access programming.

Media Services must continuously align its budget, organizational structure and service delivery capabilities and programming with market decisions dictated by local cable/video subscribers, telecommunications and video/cable providers, as well as, legislative and administrative decision makers.

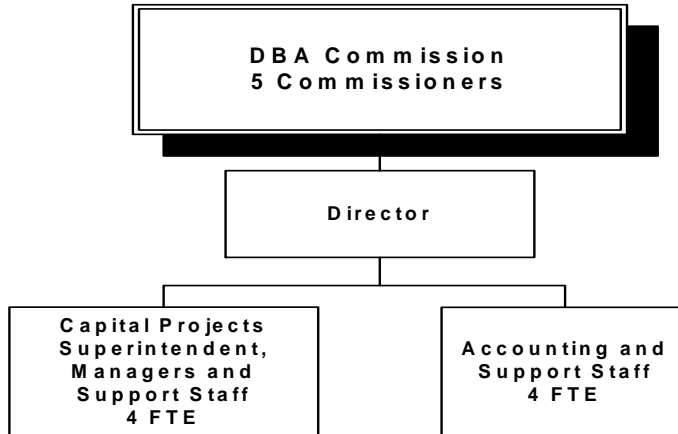

As **Communications Services** continues to assist City agencies in educating and providing information to their customers, the staff is keenly aware of the need to strengthen relationships within city government and with external organizations. With this in mind, Communication Services staff will explore and cultivate relationships with outside entities (advertising, marketing and PR) that may provide pro-bono work for the City of Detroit. In addition, staff will identify and incorporate new media in an effort to expand and enhance the city's communications efforts.
