RE: Ombudsman Annual Report on the FY 2012-12 Budget

Dear Council Members:

This is the seventh time the Office of the Ombudsman has submitted an analysis of the Mayor's budget to the Detroit City Council. This presentation is an annual tradition, organized by the Fiscal Analysis Division, allowing the City Council to weigh the needs of the community and ensure that the proposed budget addresses constituent concerns expressed through the Office of the Ombudsman.

As you know, budget cuts and departmental consolidations translate into service reductions which will ultimately generate more complaints. The existing City of Detroit workforce is not in a position to resolve everyday problems and help citizens navigate through City government. Since 2006, the number of complaints processed by the Office of the Ombudsman, has increased over 200 percent. This phenomenon occurred during a time when the City was struggling with finances; now, the City is in financial distress, and it is reasonable to assume that number of complaints will continue to climb.

The Office of the Ombudsman is up to the challenge and prepared to fulfill the Charter-mandated responsibilities to receive, investigate, and resolve complaints in order to improve the quality of life for Detroit residents, business owners, and visitors. In addition, as the only department collecting and analyzing data, the Office of the Ombudsman is uniquely situated to identify trends and assist the Mayor and Council in decision-making, particularly as it applies to service delivery.

This report documents the complaints received and investigated. The status of the complaint is also listed with a brief description. There has been a shift among the top complaints received over the past six years: The Detroit Water & Sewerage Department and Police Department generated the most complaints initially. Vacant properties, trash, illegal dumping and blight have been the front-runners since 2007, and now, complaints about streetlights have placed Public Lighting among the top three complaints received, as evidenced in the pie chart found in Section III of this report.

"Getting problems out of the way, so that progress can occur."

This year, we have provided "Complaints by Zip Code" for the current year in Section IV. In this section, you will also find a breakdown of "Complaints by Zip Code" for the last three years, depicting changes in the landscape.

Given the results of the recent U.S. Census report, the Office of the Ombudsman now represents 20 percent of City's population which averaged only 5-6 percent six years ago. It's a significant change and a testimony to the effectiveness of the Office of the Ombudsman.

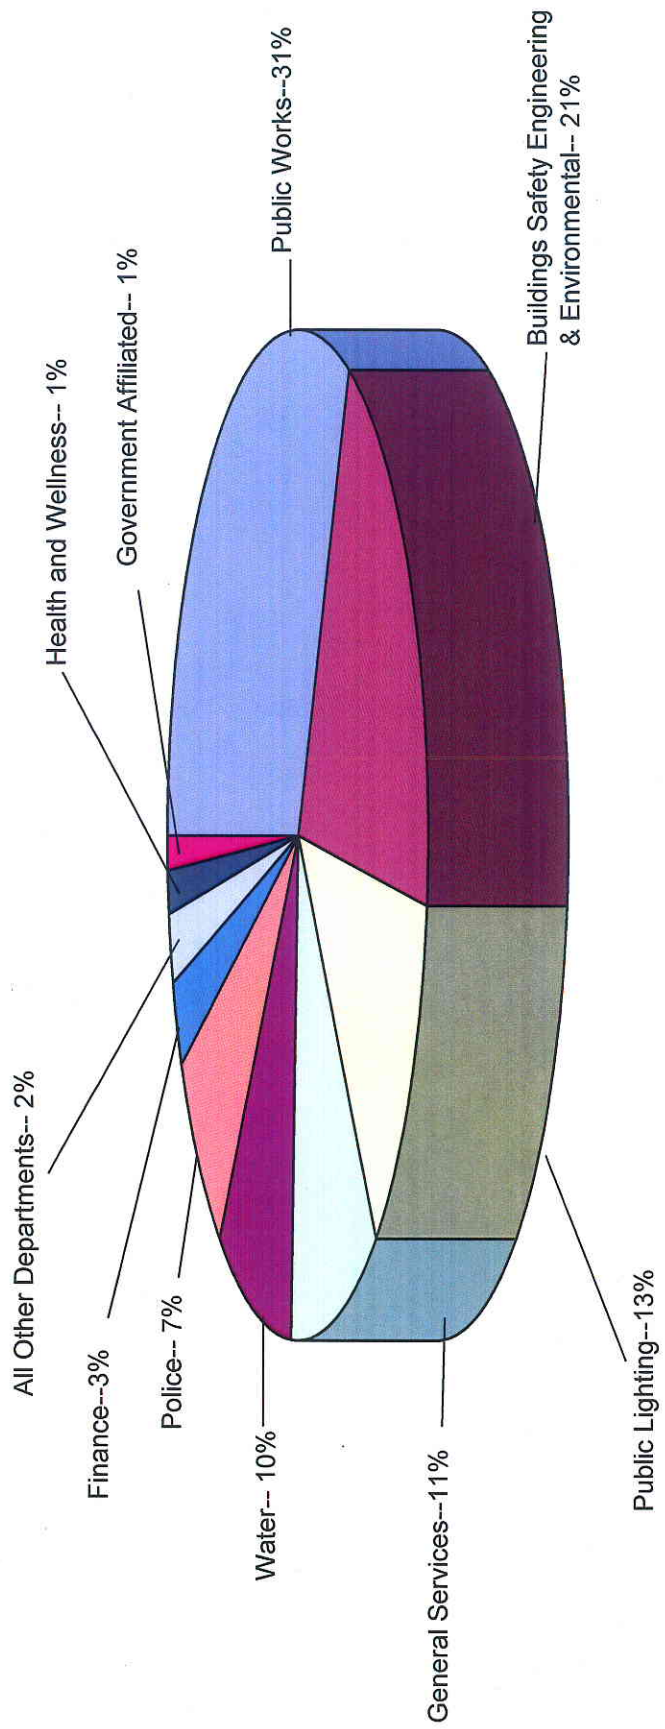

I am well aware of the current budget climate, and this report is designed to assist you in making difficult budget decisions that ultimately define the quality of life for residents and property owners. On behalf of the thousands of residents, property owners, and taxpayers who contacted the Office of the Ombudsman during the time period of March 1, 2011, through February 29, 2012. and in years past, I respectfully submit this report for your adoption.

Respectfully submitted,

Durene L. Brown
