LANDSCAPE DESIGN & GREEN INFRASTRUCTURE

ECONOMIC DEVELOPMENT

ABOUT THE PROJECT

On Detroit's east side, the City has launched planning efforts in **Islandview and the Greater Villages**. The City is identifying investments, improvements, and priority projects that we can mobilize towards construction to strengthen neighborhood vibrancy.

We want to hear from you about development opportunities for housing, commercial corridors, historic buildings, streetscapes, and landscapes that can address flooding challenges. In addition to these efforts, the City has begun efforts on one project that will address flooding issues in the area, the Beltline Greenway.

BUILD ON STRENGTH

Recognize remarkable work done throughout the community everyday.
Celebrate profound and long-standing community spirit.

ENGAGE CHALLENGES

Address systemic and structural challenges impacting quality of life.
Identify and implement solutions together.

DEFINE A SHARED FUTURE

Work hand-in-hand to shape opportunities that integrate diverse perspectives.
Ensure broad benefit and authorship for all who contribute.

DESIGN OF THE BELTLINE

Increase the quality of life for Detroiters.
Provide safe and healthy access to the Riverfront.

MAY

WHERE DO WE WANT TO GO ?

JUNE

WHERE DO WE START ?

THEMES TO THINK ABOUT:

HOW WE LIVE

- Preserve and improve existing housing
- Create and maintain affordable housing options
- Strengthen density and increase housing variety where appropriate

HOW WE'RE CONNECTED

- Expand mobility options on neighborhood streets
- Provide safe connections
- Increase access to Detroit Riverfront and Belle Isle
- Reduce flooding with stormwater management
- Create welcoming corridor and neighborhood entrances

WHERE WE SPEND TIME

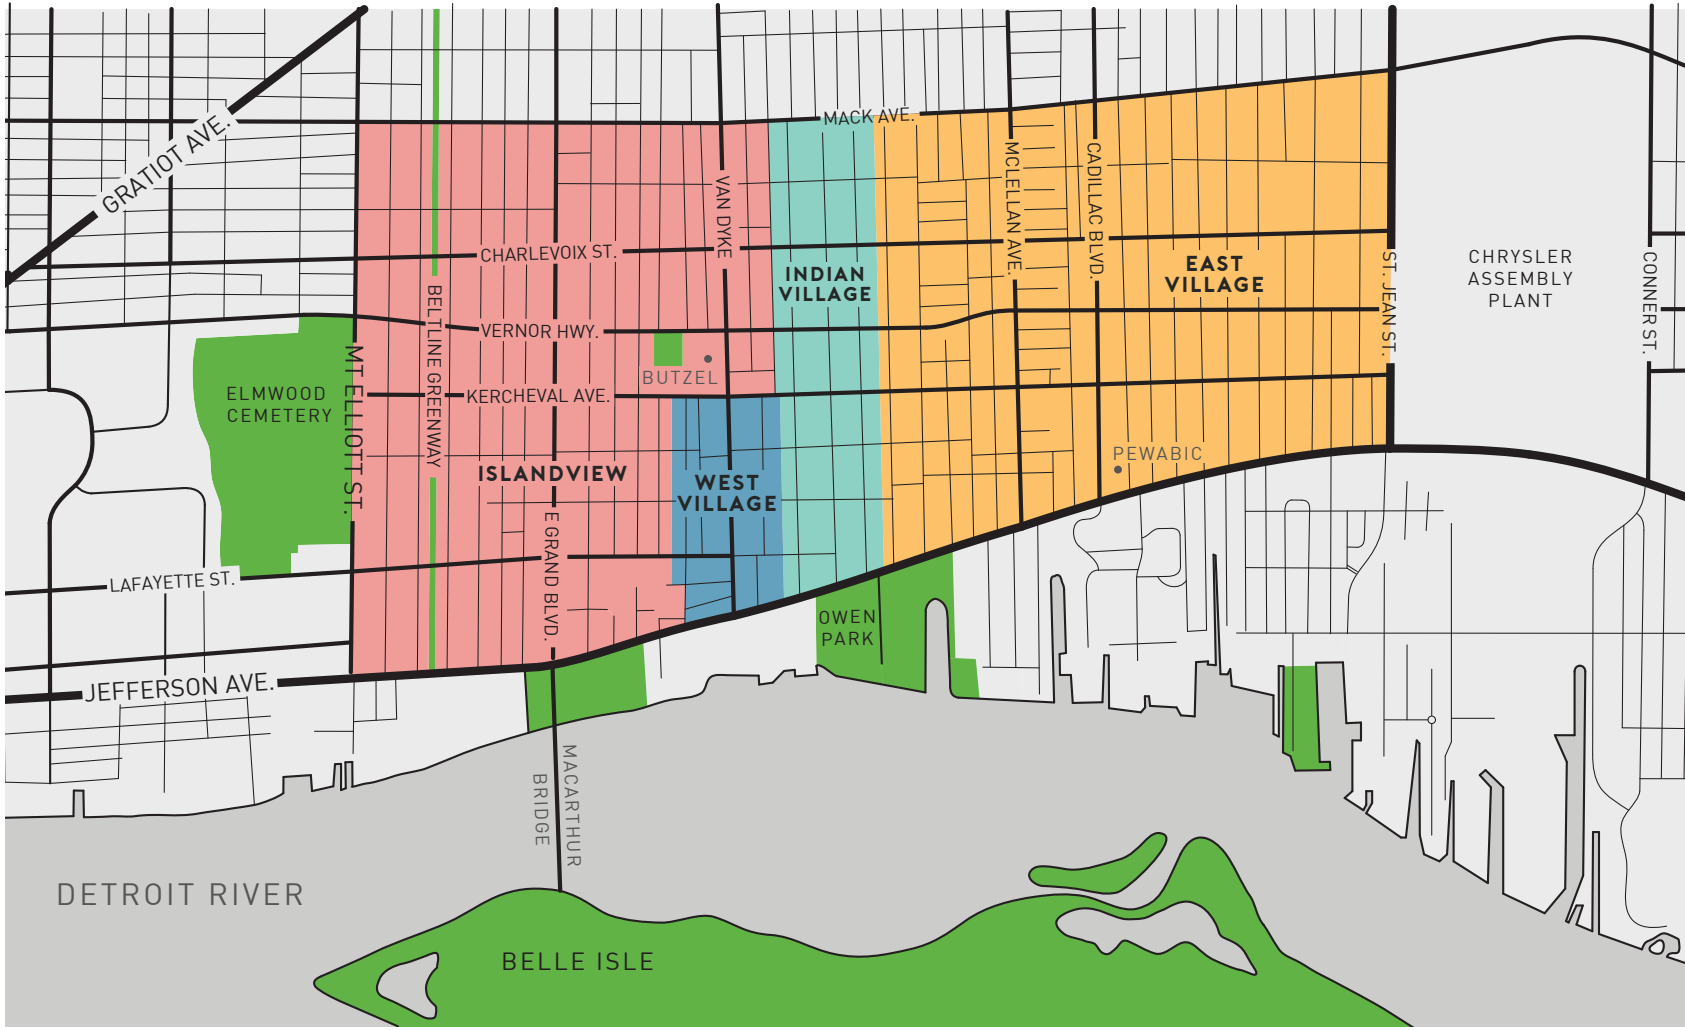

- Improve curb appeal along neighborhood streets
- Creating enjoyable places and landscapes
- Strengthen awareness about neighborhood identity and culture

WHERE WE WORK/SHOP

- Identify gaps in retail, commercial, and services (needs and wants)
- Identify Neighborhood workforce potential
- Identifying development opportunities
