BEA = Baseline Environmental Assessment. These are reports that are filed with EGLE, typically when a property is being acquired. They are only filed when there is an exceedance of the Residential Generic Cleanup Criteria for a contaminant

Facility ID = An identification number issued by EGLE for sites where there is an exceedance of the Residential Generic Cleanup Criteria for a contaminant.

Part 201 = The section of the Michigan Natural Resources and Environmental Protection Act which deals with contaminated sites.

Storage Tank = There is an Underground Storage Tank (UST) registered at this site.
