

How to submit a DBE Annual Affidavit?

B2Gnow is a diversity management and compliance software being utilized by DDOT to process applications for Disadvantaged Business Enterprise (DBE) certification, track certified DBEs, perform outreach and monitor contract compliance. The software allows the prime contractor, subcontractors, Project Managers, and Contract Compliance to all view the same information about construction contracts. The software is web-based and is provided to contractors and subcontractors to use free of charge.

To upload your annual affidavit or to update your certification, click [here](#).
